09 /2026

We didn't reinvent Sauna – Just the heater.

FinSteam was created for total freedom - to make authentic sauna more accessible, flexible and independent of location.

Our gas sauna heaters require no electricity and no chimney, making it possible to enjoy a real Finnish sauna in places where traditional solutions are difficult or simply not possible. Whether on a terrace, in a backyard, by a lakeside cabin, at the edge of the forest or high on a mountain slope, FinSteam brings authentic Finnish sauna wherever you choose.

Our goal is simple: to bring Finnish sauna and sauna culture to places where it has never been possible before.

Because freedom is not about location. It's about possibility.

CE Marking & EU Type Examination

FinSteam gas sauna heaters are CE-marked in accordance with Regulation (EU) 2016/426 on appliances burning gaseous fuels (Gas Appliances Regulation, GAR). The CE marking confirms that the heater has undergone the required conformity assessment process and meets the applicable European requirements for gas appliances.

An important part of this process is the EU Type Examination. FinSteam has been assessed by the notified certification body AENOR CONFÍA S.A.U., which has issued EU Type Examination Certificate No. A01/002220.

Patented Technology

Finsteam's gas heaters are based on patented burner technology that significantly improves safety, ignition reliability, and combustion quality.

The patented system includes advanced safety features such as flame monitoring and an oxygen depletion sensor, ensuring safe operation especially in indoor environments, such as saunas.

Finsteam's patented technology is protected well into the future, the patent is valid until 2043.

The technology is specifically designed for sauna applications, where consistent heat, reliable performance, and high safety standards are essential, but it can also be applied to a wide range of gas heating and burner solutions.

FinSteam products are developed in Finland and Sweden. All heaters are assembled and warehoused in Finland, while their burners and structural components are manufactured in Europe.

European manufacturing supports component traceability, consistent quality control and reliable spare parts availability.

FinSteam is a Finnish gas sauna heater created through Nordic expertise and European collaboration.

BOTNIA 81

The Original Finnish Gas Sauna Heater

SAUNISTICA

POWER 8,1 kW

For Sauna tents and uninsulated saunas: 4-10 m³
Well-insulated indoor and outdoor saunas: 4-14 m³

HEATING TIME

15-20 minutes to heat an 8-10 m³
sauna in temperatures above +10°C.

SIZE & WEIGHT

62 cm × 52 cm × 30 cm
10.2 - 12.2 kg (without stones)

DURABLE

Manufactured from heat- and corrosion-
resistant EN 1.4845 and EN 1.4301 stainless steel

STONE CAPACITY

Original 15-18 kg
Orbis R11 22-25kg - Orbis R14 30-33kg

ENVIRONMENTALLY FRIENDLY

During use, a gas heater produces considerably
less CO₂ than a traditional wood-burning heater.

GAS CONSUMPTION

At full power: 0.59 kg/h

APPLIANCE VERSIONS:

I3B/P30 - 30mbar
I3P37 - 37mbar

SAFETY EQUIPMENTS

Integrated and optional safety solutions designed to protect users and make every sauna experience safer.

OXYGEN DEPLETION SYSTEM (ODS)

The ODS is integrated into every FinSteam sauna heater and is an essential part of FinSteam's patented and certified system.

Oxygen Depletion Sensor monitors safe combustion conditions and automatically shuts off the gas supply if the oxygen level drops below the safe operating range. The system operates mechanically and requires no electricity.

NJORD HEAT SHIELD

The NJORD Heat Shield is designed to reduce heat radiation from the sauna heater and protect nearby surfaces. It helps decrease the required safety distance to non-combustible walls, allowing more flexible heater placement in compact sauna spaces.

NJORD is designed specifically for FinSteam sauna heaters.

SIZE & WEIGHT

Height 550 mm
Installed Width 420 mm
Weight 1.8 kg

MATERIAL

Manufactured from stainless steel

SAFETY EQUIPMENTS:

Price

NJORD Heat Shield

170,00€

HALO Safety Rail

240,00€

HALO SAFETY RAIL

The HALO Safety Rail is designed to help prevent accidental contact with the hot surfaces of the sauna heater.

It creates a protective barrier around the heater while maintaining safe airflow and easy access. Manufactured from Alder wood.

HALO is designed specifically for FinSteam sauna heaters.

SIZE & WEIGHT

Height 45 mm
Diameter 470 mm
Weight 1.1 kg

ACCESSORIES

Enhance your FinSteam sauna experience with practical accessories.

SAUNISTICA

VELLA WATER TANK

Warm water, naturally powered by your sauna heater.

FinSteam VELLA is a compact heater-mounted water tank designed to heat water while your sauna is in use. It makes efficient use of the heat generated by the FinSteam gas sauna heater, without electricity or any separate heating element.

With a 4.9-litre capacity, VELLA provides warm water for washing, rinsing and other practical sauna needs.

It is designed to fit both FinSteam BOTNIA81 and AURORA81 gas sauna heaters and integrates neatly with the heater.

Simple, practical and perfectly suited for off-grid saunas, cabins, mobile saunas and other locations where electricity or hot water may not be available.

SIZE & WEIGHT

Total Height 161 mm
Width 360 mm
Weight 4.0kg
Capacity: 4.9 L

MATERIAL

Manufactured from stainless steel

FRITID & FRITID X & DOME

Premium sauna tents made for demanding outdoor use.

SAUNISTICA

FINSTEAM SAUNA TENTS

FinSteam sauna tents are designed for quick setup, excellent heat retention and effortless transport. Their insulated multi-layer construction provides a comfortable and efficient sauna environment almost anywhere. Every model is designed to work seamlessly with FinSteam gas sauna heaters.

SIZE & WEIGHT

FRITID & FRITID X

SAUNA SIZE: 8 m³

Floor size: 180 × 180 cm
Inside Width: 180–224 cm
Inside Height: 180–207 cm
Weight: 15 kg

Required Space:

Width: 240 cm
Length: 240 cm
Height: 220 cm

DOME

SAUNA SIZE: 19.5 m³

DOME is a spacious 4 × 4 m portable sauna tent.

Its octagonal design offers room for around 10–14 people

STRUCTURE AND MATERIALS:

Outer layer: 100% Oxford 420D polyester with a waterproof coating.

Middle layer: 100% polyester fiber fill (150 g/m²) providing effective thermal insulation.

Inner layer: 100% Oxford 210D polyester fabric with a smooth inner surface that retains heat and enhances comfort.

Waterproof rating: 2000 mm water column, suitable for rain, snow, and high-humidity environments.

FRITID vs. FRITID X

Both models offer the same premium insulated construction and easy pop-up setup. FRITID is the classic white model, while FRITID X features a black exterior, two entrances and the ability to connect multiple tents together

SAUNA BENCHES

Lightweight, removable sauna benches designed for sauna tents and portable outdoor saunas.

PORTABLE SAUNA BENCHES

FinSteam POPPEL sauna benches are designed especially for FinSteam sauna tents and portable outdoor saunas, but are also suitable for a wide range of other sauna setups.

Their lightweight construction allows for quick setup, while the optimized seating height ensures a comfortable sauna experience. The strong, reinforced structure provides excellent stability even in demanding use.

MATERIAL

Made from poplar wood – lightweight, durable and pleasantly smooth against the skin.

EASY SETUP

One of the key advantages of POPPEL sauna benches is their quick and effortless setup. No tools are required for assembly or disassembly, and the benches are ready to use in just a few minutes.

HOW TO ORDER?

1. Choose Your Products

Select the sauna tent, gas sauna heater or accessories you would like to order.

We are happy to help you find the right sauna solution for your needs. If you are considering a gas sauna heater for your own sauna, our technical expert will assess its suitability for your sauna and provide detailed installation and ventilation instructions.

2. Place Your Order

You can place your order by email, WhatsApp or phone.

Once your order has been placed, you will receive an order confirmation and invoice by email.

3. Payment & Order Processing

Once the invoice has been paid in full, we will process your order and prepare it for delivery. You will then receive confirmation of the scheduled shipping date.

Lead times for custom-made and special-order products may vary. We will always provide an estimated production and delivery schedule in advance.

4. Shipping & Delivery

Once your order has been shipped, you will receive a tracking number by email or WhatsApp.

Delivery times depend on the destination country and selected shipping method. Please inspect your shipment upon arrival and notify us immediately of any damage that may have occurred during transport.

5. Order Collection

If you choose to collect your order, we will notify you by email and WhatsApp once it is ready for pickup. The collection notification will include the pickup address, available collection times and contact details.
